

# Synthesis

[Click here for Google Doc \(Click File > Make a Copy\)](#)

## Introduction

Welcome to 'Synthesis', the final module in the Copywriting 101 course. In this module, we'll cover how to implement everything you've learned throughout this course to see insane results with your copy.

DISCLAIMER: I highly recommend watching every previous module before watching this module, as we'll be building on the concepts we learned there. If you don't understand those concepts in depth, applying the concepts you'll learn here will be harder and more complicated.

## The Goals of Synthesis

**Goal #1:** I want you to leave this module with a simple yet practical way to start implementing the principles you learn for EVERY piece of copy you write.

**Goal #2:** I want you to leave this module knowing EXACTLY what skills/copy to focus on learning (and how to learn them) to achieve the outcomes you want in life.

*> While some of this module might seem a little 'overkill', understand that what you do in this module should become subconscious over time. All great copywriters go through this checklist every time they write; it's just become subconscious — it's all done in their head.*

## The Synthesis Checklist

To achieve goal #1 of this module, I've compiled the first principles you've learned throughout this course into a tactical checklist you can use to enhance every piece of copy you write.

Until you become extremely confident in your writing, I highly suggest using this checklist as a guide as you write every piece of copy.

## Phase 1 - Foundations

Before you start writing, you need to have the proper foundations.

The following questions will help you gain the understanding you need to write a compelling piece of copy:

1. Understand the specific conditions of who you're writing to.
  - a. See *Specific-Conditions* module.
  - b. If you really have **NOTHING** to go off of... I've made a ChatGPT script below.
  - c. This should **ONLY** be used to start. You will not make millions outsourcing your thinking.
  - d. Click Here: [ChatGPT Research Prompt \[Template\]](#)
2. What is the goal/micro-action of this specific piece of copy?
  - a. EX: Click the CTA, Click the thumbnail, etc.
3. What is the goal/macro-action of the entire system that this piece of copy is in?
  - a. EX: Build trust in our audience by providing weekly value, building interest to learn more in our product
4. Are there any special rules of the environment that you must abide by?
  - a. What are the 'rules' / best practices of the environment your copy is deployed in?
  - b. EX: IG Reel, YouTube Community Post, Email, LinkedIn Post
  - c. **DO YOUR OWN RESEARCH!** But if you really have nowhere to start, use this.
  - d. Click Here: [ChatGPT Environment Prompt \[Template\]](#)

## Phase 2 - Rough Drafts

1. What is the one 'big idea' of your copy?
  - a. Summarize your whole sales message in one sentence.
  - b. Is it simple, useful, and compelling?
2. What is the main emotion(s) you're pushing with this piece of copy?
  - a. New, Easy, Safe, Big
  - b. Is this the most compelling emotion for this piece?
3. What sections are needed in this piece of copy?
  - a. What sections do you need in what order?
4. Write as MUCH VOLUME as you can without judgment.
  - a. **JUST WRITE.**
  - b. **DON'T THINK, FEEL.**
  - c. Try to capture the raw emotion that you're trying to convey.

5. Create as MANY rough drafts as you need until you FEEL the emotion come across.
  - a. *The more important the copy, the more rough drafts you should write.*

### Phase 3 - Refined Draft

1. How can you make the emotions MORE potent?
  - a. *Focus on BENEFITS, not features.*
  - b. *How do they FEEL about their current situation?*
  - c. *How can you paint a more vivid, specific, painful situation?*
2. How can you create trust using the 11 Variables of Likeness?
  - a. *See 'Liking-Relatability' module.*
3. How can you change the 'text' to match you/your client's voice better?
  - a. *Can you use words that resonate more with that specific audience?*
  - b. *Make it authentic.*
4. How can you make the hook/lead/angle more curious?
  - a. *What is the question you're implying in their head?*
  - b. *Would a different question be more curious?*
  - c. *Tie more emotions to it?*
5. Have you added urgency/scarcity?
  - a. *See Urgency-Scarcity Module*
  - b. *Is there a feeling that they have to act now?*

### Phase 4 - Final Draft

1. Remove & fix anything confusing.
  - a. *See Concise-Curiosity for in-depth steps.*
2. Remove & fix anything unbelievable.
  - a. *See Concise-Curiosity for in-depth steps.*
3. Remove & fix anything boring.
  - a. *See Concise-Curiosity for in-depth steps.*
4. SIMPLIFY & CONDENSE.
5. WAIT 24 HOURS.
6. Repeat this phase multiple times depending on the importance of the piece of copy.

## The Hyper-Learning Cycle

I believe that **SKILL** is the MOST important form of leverage for any beginner. Having more skills, and a higher level in each, allows you to get way more output per every amount of input.

EX: A beginner closer might take 8 calls a day with a 10% close rate where as an expert closer might take the same 8 calls a day but have a 30% close rate.

> Same inputs. Triple the outputs. Skill leverage.

★ This is why becoming extremely skilled should be the SOLE FOCUS for anyone trying to make their first \$10k/month online.

**This realization is the reason I hit my first \$10k month with copywriting back in 2024.**

Once you realize this, the next logical questions are:

1. *What skills do I learn?*
2. *How do I learn them as fast as humanly possible?*

To answer these questions, I developed what I call the 'Hyper-Learning Cycle.'

The Hyper-Learning Cycle allows you to figure out which skills to focus on and learn them EXTREMELY fast. Like faster than you've ever seen someone learn a skill lol.

Here's how it works:

## PART 1: Choosing 'What' To Hyper-Learn

1. What is the outcome you want to achieve?
  - a. *The more specific, the better.*
  - b. *Make Money Selling Online Courses To YouTube Audiences*
  - c. *Hit 100,000 subs making daily videos*
  - d. *Work with major e-commerce brands, making them money by doing email marketing.*
  - e. *Run a 4-minute mile.*
2. What skills/pieces of copy do you need to make sure you achieve that outcome?
  - a. *List the skills you would need to make it impossible for you to fail.*
  - b. *Make the skill tree on Miro. 🌲*
3. What are the micro skills inside of each of those skills?
  - a. *Go into DETAIL!*
  - b. *EX: YouTube Script -> Title, Thumbnail, Hook, Body Content, CTA, Etc.*

**BONUS:** What are the 20% skills that account for 80% of the results?

- a. *What skills are the non-negotiables?*
- b. *What skills would make the outcome impossible without having?*
- c. *Remember, this is an iterative process; you won't get it perfect first time.*

**BONUS:** What skills do you feel most excited to learn right now?

- d. *Passion -> Obsession -> Focus -> Skill*

> Live Skill-Tree Examples:  Synthesis Examples

## PART 2: Hyper-Learning The Skills

Choose ONE skill to learn daily using this cycle. Start small and work your way up. Repeat this cycle 5 days a week (don't forget to REST weekends) until you feel you've learned the skill to the level you need for the outcome.

**STEP 1 - DO:** For 30-90 minutes every day, do the thing.

- a. *You WILL suck at it. That's the whole point. You MUST fight procrastination with massive action. DO THE THING BEFORE ANYTHING ELSE.*

**STEP 2 - LEARN:** For 30-90 minutes every day, learn from someone 'good' who teaches the skill.

- a. *Find someone credible and learn from them. Books, courses, videos, etc.*
- b. *Take notes on insights you find useful.*

**STEP 3 - STUDY:** For 30-90 minutes every day, study someone 'great' who is DOING the skill.

- c. Find someone who is/was the best in the world at doing the skill you wanna learn.
- d. Watch them closely and take notes on insights you find useful.
- e. Make epic resources. (Databases/Swipe Files/Etc)
- f. The secret is in making your OWN databases specific to the skill you're learning, but here's a juicy database full of copy to get you started: [Copy Examples Database](#)

**STEP4 - ITERATE:** For 15-30 minutes every day, look over your notes from #2 & #3 and write down how you can improve your 'doing' the next day.

- g. Focus on 1-3 things ONLY.
- h. Focus on small, consistent improvement.
- i. 1% better every day.

★ **CHEAT CODES TO ITERATION:** The coaching calls! Live iteration from people at a higher level than you!

Important Reminders:

- > Growth happens through action AND rest.
- > Building muscle, learning guitar, etc.
- > Skill is cemented in SLEEP.
- > REST AT LEAST 1 DAY A WEEK! THIS IS BIBLICAL!

## Example

**The Skill:** KJ Learning YouTube Thumbnails

1. **DO:** I spent 1 hour a day making YouTube thumbnails.
2. **LEARN:** I spent 30 mins a day watching videos/courses on thumbnail/graphic design.
3. **STUDY:** I spent 1 hour a day finding and studying the best-performing thumbnails on YouTube. I made [multiple thumbnail databases](#).
4. **ITERATE:** I spent 15-30 mins a day looking at my notes and brainstorming ways I could improve my thumbnails. Keep an 'iteration log' of your discoveries.

**The Skill:** KJ Learning To Speak

1. **DO:** Make one video a day where I speak 'freestyle' on a topic for ~10 mins. ([channel here](#))

2. **LEARN**: I spend 30 mins a day consuming videos/courses/books on speaking better.
3. **STUDY**: I spend 30 mins a day finding and studying the best speakers in the world and taking notes on how they speak.
4. **ITERATE**: I spend 15-30 mins a day reviewing my video from yesterday and writing down 1-3 things I can improve on for tomorrow. Keep an 'iteration log' of your iterations.

Don't forget to check out the juicy copy database to get you started on the copy side of things!

---

**Quick Reminder:**

*If you want me to crank more modules like this one, and even better, let me know any wins/breakthroughs/thoughts you have on this module/course in the #🌟course-wins channel in the Discord. It gives me so much energy to know all the pain I go through making these is worth it haha.*

*Wow. What a ride. This course is honestly my life's work to this point, and I hope you enjoyed going through it as much as I enjoyed making it. Praying the info in this course is truly life-changing for you and most importantly, this points you to find the real Truth. Capital T. Meaning the fact that God loves you, created you, and wants a relationship with you. He sent his son Jesus to die for you so that whoever believes in Jesus would not 'die' but have eternal life. Praise God. 🙏 (John 3:16)*

*(If you wanna learn more about Jesus, then check out the [Mindset course](#) or come to our Saturday Bible Studies)*

*Love yall, and as always... see ya in the next module 👁👁*
